GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

Peter Cooper on Finances.

NEW YORK, June 8.—Peter Cooper has just addressed an open letter to President Hayes, criticising the past financial policy of the government, and also marking out the course he begins the letter with these words: "Allow me to offer you my heartfelt congratulations for the wise and independent course you have adopted in the discharge of the responsible and difficult duties that you have recently been called upon to perform." Cooper argues that our national currency must be made redeemable for all purposes throughout the country in coin, or convertible with 3 per cent. government bonds. Such a currency would have a greenback more to the American people than the gold mines that have ever been discovered. He advises silver to be withdrawn from circulation and used in the purchase of foreign bonds, the fractional paper currency to be revived.

Financial Subjects.

The *Tribune's* Washington special says Secretary Sherman said to-day: "I am simply carrying out the act of Congress, and unless Congress interferes by repealing or extending the time fixed by the act for resumption of specie payments, I shall proceed to execute the law as I find it in the statute books.

Politicians who recently arrived from Indiana report a feeling in favor of the renomination of Governor Hendricks. They intimate that it has apparently wiped out the democratic greenback faction. These gentlemen declare if the President recommends redemption of silver in his message to Congress his administration will be the most popular which the country has had for many years.

PHILADELPHIA, June 8.—A gentleman proposes a compromise upon which he hopes to unite the silver dollar men and advocates of the gold standard. He has patented a metal he supposes to contain two standards of value. It consists of amalgam of twenty-one parts of silver to one of gold, which is about the same as the alloy of copper is now used in silver coins. A dollar piece of this material will be about the size of our present silver half-dollars. The inventor proposes that coins made of his patent mixture be a legal tender and recent subsidiary coinages shall be retired. He argues that his new money will not be exported nor worked up by coiners and silversmiths, and that it will remain in circulation in the country as a permanent circulating medium. He says the density of the new metal would be greater than either of its component parts, and that it would be more to the bulk than either gold or silver.

Fire in Bellevue Hospital.

NEW YORK, June 8, 8:30 A. M.—A reported serious fire is in progress at Bellevue Hospital, 2nd street and East River. The small pox portion is burning. No details possible.

Partial Payment.

A special says the first installment of Treasury money has been received by the auditors.

A Letter from Lerdo.

Lerdo Tejada, now in New York, wrote a letter in relation to the recent order for American troops to cross the Mexican border in certain contingencies, saying it is to be hoped no such case as the order contemplates may arise, nor any cause of a misunderstanding between the two countries. If unfortunately this hope should not be verified and Mexico did not consent to allow American troops to enter her territory without submitting to a violation of her rights as a sovereign and independent nation, I must say to you, not only in my name but in that of all supporters of constitutional government, that neither for the purpose of stopping it nor for any other purpose can we fail to fulfill our duty, in presence of any peril to autonomy and rights of Mexico. The constitutional government will seek to help save from the opinion and action of Mexican people, holding sacred above all things the honor, integrity and independence of the country.

Brigham Young's Views.

The *Sun's* Cheyenne special says Brigham Young has written to Washington saying there is no need for troops in Utah; but for the financial benefit of Salt Lake he would like to see a regiment there if the government has no better place to quarter one.

Tour of the Yellowstone.

Sheridan and Crook are fitting out a small expedition to start from Green river to march due north through Camp Brown and down Big Horn river to the Yellowstone. After locating two military stations north of the Big Horn country, for which Congress has appropriated $200,000, the expedition will return by December down the Yellowstone and Missouri rivers.

GALVESTON, Texas, June 8.—Three blocks were destroyed by fire this morning. The principal losers are the Grand Southern Hotel, Seligson & Kenk, First National Bank, L. & H. Blum, Ferd Sword & Co., G. Seligson & Co., Cotton Exchange, T. C. Ayers, Jacobs & Bro., Hart, Champion & Co., J. M. Brown, Cole, P. D. Harrar, Geo. Schneider & Co.; loss estimated at $3,000,000.

GALVESTON, Tex., June 8.—This morning a fire broke out in the New York restaurant, on Market street, and was not extinguished until it had destroyed all the buildings between Market, Twenty-first and Twenty-second streets. After consuming a number of stores on Market street, the fire crossed to the Grand Southern hotel, Murphy & Stockleman's hardware establishment and several frame buildings on the south side of Mechanic's Crossing Mechanic street, the old Washington hotel, Odd Fellows' hall, Seighman's Bank, First National bank, Marx & Company, wholesale grocery house, Jacobs & Markbreit, wholesale clothing, and T. C. Thompson & Co's wholesale drug store, J. S. Brown & Co's wholesale hardware, Ranlett & Co.'s cigar stores, George Schneider & Co., wholesale grocery, all on the south side of Strand, were destroyed, 26. Loss estimated at from two to three million dollars. It is impossible to get details owing to the excitement and confusion, and it is said that leading firms are fully covered by insurance. L. & L. Blum loss on stock $600,000, building $100,000, insurance about $65,000; Marx & Kempner loss on stock $170,000, building $3,000 insured.

Custom House Reforms.

NEW YORK, June 8.—Custom house committee, consisting of Hearn, committee from importers and grocers, who recommended among other things that weighers and gaugers' fees be paid only on such articles as are weighed before going abroad; that no fees whatever be charged on export goods, and favored abolition of the damage allowance only after goods have left possession of the government. They favored the passage by Congress of a new and simple warehouse law. A. P. Ketchum, general appraiser, opposed the establishment of inland ports of entry. Other gentlemen made many suggestions, after which the commission adjourned sine die. A report will soon be given out by the Secretary of the Treasury.

The Prize Ring.

NEW YORK, June 8.—A prize-fight, between McLaughlin, of Brooklyn, and Williams, of Jersey City, took place to-day in a bar-room on the outskirts of Brooklyn. Twenty-one rounds were fought, when McLaughlin was declared victor. Both men are badly punished.

The Butler and McVeigh Quarrel.

Butler in leaving Washington left a card for publication regarding two communications from McVeigh and John T. Woodbridge, whom he calls McVeigh's second, and whom he asserts was sent by a provost court to prison for smuggling liquor into Norfolk. Woodbridge addresses Butler as the "Honorable Dis. Ben. Butler," heads his letter "to old cock-eye," and reiterates the spoon story.

Amending the U. S. Constitution.

NEW YORK, June 8.—The *Post's* Washington special says: Senator Jones, of Nevada, has drawn up an amendment to the federal constitution which he intends to submit to the Senate at the extra session. It provides that paper money only shall be used as legal tender in the United States, and that issues of such moneys shall be at the rate of $20 per capita of the population. The population of the country to be ascertained annually by a census. The Senator believes such an amendment will be popular, and can be carried through the legislatures of most of the Western and Southern States. He does not hesitate to say he wants gold and silver made a commodity and not a standard of value.

The report of the silver commission which Jones is drawing up is nearly completed, but will not be made public until a short time before the political campaign opens in Ohio and Pennsylvania. Some of the paper-money men who have seen the report declare it to be a very able document.

The Mt. Carmel Disaster—Appeal for Help.

MT. CARMEL, June 8.—The calamity which has befallen this city has not been overstated. Fourteen blocks of beautiful homes and business houses are in ruins; a hundred families homeless and helpless, a score of dead and over seventy badly hurt in a population of 2,300, a loss not less than $400,000, is too heavy a load for this heartstricken people to carry alone, and help must come from the country at large. Any aid from cities or towns that may be sent to R. S. Gordon, Mayor, or Judge T. J. Shannon of the banking house of Shannon & Beal, chairman of the relief committee, will be wisely and faithfully appropriated towards those who are worthy and needy.

They also resolved that it be referred to said committee to inquire into the sale or disposal by the sinking fund commissioners, of property and assets of the State, and to whom the same was disposed, and for what consideration, and to ascertain whether the action of said commissioners therein was legal and valid, and if the disposal of said assets and property was illegal, to cause legal proceedings to be instituted to recover the same and convict the parties implicated. Also resolved that it be referred to the same committee to investigate the election of J. J. Patterson to the Senate of the U. S. Dec. 10, 1872, and to ascertain if the same was procured by bribery and corruption.

The general assembly adjourned *sine die*.

The Doctors in Council.

CHICAGO, June 8.—The American Medical Association adjourned to-day to meet in Buffalo next June. The only notable eventiwas a speech by President Bowditch, of Massachusetts, in introducing the president elect of Louisiana, Richardson, in which he extended, as he said, the hand of Massachusetts to Louisiana, thus signifying the oblivion of the past. Dr. Richardson responded fitly, and expressed gratification at the restoration of a national union of States.

CHICAGO, June 8.—Commencing next Sunday, the Pittsburg and Fort Wayne will run daily fast trains, starting from Chicago at 4:20 and reaching New York at 7 o'clock the succeeding evening. The actual running time will be 25 hours, 45 minutes. The same road will also put on another fast train, which will leave Chicago at 8 P. M. daily and arrive in New York at 7 o'clock the second morning. This is done to beat the 25 hour trains which have been put on other trunk lines of late.

A Painter Dead.

NEW YORK, June 8.—Edwin White, the well known painter, died yesterday at Saratoga Springs.

HOW IT IS DONE IN GEORGIA.

A correspondent of the New York *Tribune*, E. V. Smalley, in a recent letter explains how the political problem is worked out in Georgia. We quote:

The negroes outnumber the whites in all these southwestern counties, but the whites enjoy complete political supremacy. A portion of the blacks vote with them, others do not vote at all, and the number who act together as a negro party is not numerous enough to carry elections. The Georgia system of dealing with the colored vote appears to be everywhere effective. I have not got at all the details yet, but imagine that the essence of the system consists in controlling the election machinery, so that no matter what votes go into the boxes, those that come out show the white candidates to be ahead. It does not appear to be the policy of the managing white politicians to wipe out the black Republican vote entirely. They leave enough of it to serve as a bugbear to the whites and keep them together in the Democratic party, but not enough to do any harm. They say to the white people, "We must permit no divisions among ourselves, or the niggers will get in power again," but they are careful not to give the negroes the least chance of regaining supremacy.

WASHINGTON CITY.

Chicago Collectorship.

NEW YORK, June 7.—The *Tribune's* Washington special says Wm. Henry Smith, general agent of the Western Associated Press, declined, or is about to decline, the collectorship of the port at Chicago. It is understood this is the second or third office which has been tendered him by the administration.

PROVIDENCE, June 8.—The tool company is now employing 2,500 men and manufacturing 60,000 Marini-Henry rifles a day. The Packing Box Co. at South Hadley Falls makes 20,000 boxes a year for the Providence corporation, and in these the rifles are packed for shipment to Turkey.

The Utah Attorney's Visit to Washington.

The *Times'* Washington special says District Attorney Howard of Utah arrived, and had a long interview to-day with Attorney General Devens, and subsequently called upon the President with the Attorney General, when the affairs in Utah were talked over. Howard was instructed to proceed with caution and firmness, and assured the government will sustain him in bringing all Mormon murderers to justice. A military force sufficient to protect the District Attorney and enforce the judgment of the courts will be sent to Salt Lake should such force become necessary.

The Cabinet Meeting.

WASHINGTON, June 8.—The Cabinet to-day discussed Utah troubles at some length. The opinions of U. S. Attorney Howard of that Territory, who is now here, in regard to prosecutions for complicity in the Mountain Meadows massacre, were fully considered. It was agreed by United States authorities that they should proceed with firmness in these prosecutions and all offenders be brought to justice. Should Mormons make any attempt to prevent punishment of their leaders, the government will see that sufficient force is sent to the Territory to enforce the decrees of the courts; but it is not believed there will be any trouble.

The Secretary of State read a communication just received by him from our Minister to Mexico, to the effect that the Mexican authorities will co-operate with the United States authorities on the Rio Grande to prevent raids into and break up cattle stealing in that section.

No foreign appointments whatever were agreed upon.

John Tyler, son of ex-President Tyler, has been appointed inspector of customs.

Government Timber Marauders.

Commissioner Williamson, of the general land department, to-day received a telegram from New Orleans stating that the effort of marauders on public timber lands at Lake Charles to have timber bonded have been defeated, the court holding that the property could not be bonded until an inventory and appraisement had been made.

New Constitution for Georgia.

CHICAGO, June 8.—The *Journal's* special from Washington says: A Savannah letter says Tuesday next, the State votes on the question of calling a constitutional convention to frame a new constitution on the ground that the present one does not represent the will of the majority of the people, as being made under dictation from Washington City through military authority. It brands the war as a rebellion; insults the living and despises the patriotic dead; declares paramount allegiance is due by every Georgian to the national government while each government is supreme in its sphere and in perfect harmony. Ben Hill and the whole Democratic party favor the change, while Republicans oppose it.

The President and the Colored People.

WASHINGTON, June 8.—Colored representatives of different States have recently addressed a letter to John M. Langston, now in this city, in which they say, as no other colored man has been so pronounced in support of the policy of the President as himself, and his published utterances contain some very explicit statements, they are warranted in the belief that he has assurances of the good intentions of the President toward the colored people; therefore, they ask him to state frankly whether their belief is well founded as to the exact nature of these assurances; whether they go to the extent of protection, promotion and proper recognition of the colored people by the present administration. Langston, in a lengthy reply, says: "I called upon the President, and, explaining the object of my visit received from his own lips the most positive assurances that it is the purpose of his administration to secure by any and every legitimate means within its power and control our protection, promotion and recognition. His words were plain, earnest and satisfactory, but, as if determined to convince me beyond any conceivable doubt which might hereafter rise in my mind, he proceeded to tell me his last official act for the day was the appointment of M. W. Gibbs, of Arkansas to an important office in his State; that he was then engaged in preparing a circular in which he directs various office holders of the general government, among other things, to observe in dealing with persons of our complexion making an application for positions under them the fourteenth and fifteenth amendments in spirit as well as letter, and had directed every postmaster and postmistress whom he appointed in the South to see to it that the claims of colored applicants be duly respected and that colored persons be appointed to positions in such offices. He had directed the postmistress at Louisville, Ky., in organizing her office, that she must have colored citizens represented, and it is within my own knowledge that a few weeks ago when the Indian peace commission paid their respects to the President, he asked, among the very first questions which he put, whether any colored persons had been employed as agents and superintendents among the Indians, and whether there was any reason why such persons should not be employed.

A delegation of colored men from Louisiana had an interview with the President this evening. Gen. Comly of Ohio introduced the delegation to the President, Secretary Evarts and Mr. Kasson, minister to Spain, who were present during the interview. The delegates spoke of the necessity of the President recognizing the colored element, and wanted some practical evidence of his friendship for their people. The President replied he had heard of the committee and wanted to see them before acting. They presented the name of Col. Lewis for naval officer at New Orleans, and General Chester for minister to Liberia; also the names of other colored men for several positions. The President said that he desired to give a fair share of the patronage to the people whom they represented. Col. Lewis' appointment would be made immediately. Gov. Antoine and Mr. Joubert would be taken care of, but he did not indicate how. The delegates said Mr. Parker was entirely satisfactory to the community as postmaster of New Orleans. The President very emphatically said the gentleman would not be removed, as he was a most efficient officer. Chas. Ringold, appraiser of merchandise will not be disturbed. Mr. Pitkin was urgently pressed for the Marshalship. Senator Dumont presented a long petition asking for Pitkin's retention, and spoke of his good qualities as a public officer. The committee then called attention to their open letter to Collector King and his reply thereto, and the President said the colored people would receive proper representation at the hands of Mr. King, and he intended to see that they were represented.

A Mexican Protest.

WASHINGTON, June 8.—The memorandum by the Mexican minister submitted to Secretary Evarts yesterday is in the nature of a protest against the recent action of the cabinet in instructing the military commander of the Southwest to pursue marauders into Mexican territory. It is similar in terms to the protest presented by him four years ago after the invasion of Mexican soil by Gen. McKenzie in pursuit of Kickapoo Indians, when he expressed the hope that no act similar to that will hereafter be committed, and if any measures shall be deemed necessary in order to remedy evils on the frontier which it may be necessary to carry out on Mexican soil such measures will be adopted and carried out by both governments jointly, since an incursion of foreign troops into the territory of Mexico, besides being at variance with the principles which govern nations in time of peace, may in this country bring the nation into very serious conflicts and materially disturb the peace of the republic. This last consideration would, he says, probably be sufficient for a friendly government, for it will not wish to run the risk of causing such terrible evils to its neighbor when it relies upon the good will of the latter to secure the just ends which it seeks to attain.

The Spanish Minister.

Minister Kasson was at the State Department to-day receiving his instructions preparatory to starting for his post. It is present intentions are to sail from New York July 4th.

The Syndicate.

WASHINGTON June 8.—August Belmont and other bankers representing the syndicate arrived here to-day for the purpose of entering into a new contract with the Secretary of the Treasury to dispose of the remaining government bonds. The negotiations are for the purpose of placing the 4 per cent. bonds upon the market in the end of 4½ per cents. The contract will probably be concluded in a day or two.

More Dismissals.

Twenty persons were removed from the Treasury Department to-day on account of relationship.

A TERRIBLE DISASTER.

Walls of a Burning Building Fall and Crush Eleven Persons.

BRIDGEPORT, Conn., June 8.—The most disastrous fire ever experienced here occurred last night at 1:30. A light was discovered in the fourth story of Glover, Sanford & Sons' factory, and an alarm was sounded, followed by a second, and the whole fire department responded. The water supply proved insufficient and the fire thereby obtained the mastery. The flames were first seen in the dyeing and mixing room in the northwest corner of the third story of the main building, and running along that floor were communicated by the dummy to the stories below. The main building was 280 feet long, 50 feet wide and 4½ stories high. While volunteers were removing goods from the office, a one-story structure, suddenly and without warning the back and front walls fell out, caving the two highest walls unsupported. The one adjoining the office leaned outward and a shriek went up from the spectators as it fell on the roof of the office, crushing through to the basement and burying those within. One man who escaped stated there were a dozen more in the ruins, and already eleven bodies have been recovered, nearly all fearfully crushed and more or less burned. Sandfords' loss on building, machinery and stock, will reach $250,000; insurance $120,000. Sandfords say they will sell or lease rather than put up a new factory without better water supply. They had hose on every floor, but no water could be had. At the same time the east end wall also fell, carrying the fire into the wing 110 feet long and 60 feet wide. This was also completely destroyed, together with the engine and boiler room. The adjoining walls fell about 12:30, and as soon as possible the search for the missing was commenced, but it was before the first body was recovered. During the next hour eight were found, and by 10:30 two others had been taken from the ruins. The bodies were placed in wooden boxes to await the action of the coroner's jury. The names of those recovered are: O. J. Acker, limbs burned off to the knees, he leaves a wife and two children; Geo. Acker, son of O. J., crushed; John Gallagher, leaves a wife and children; Chas. F. Dart, leaves a wife and two children; John Maloney; A. McIntyre, hand severed from the body; John Tuesen, burned beyond recognition, was identified by watch and ring. One other body supposed to be that of a man named Sweeney was found with his limbs burned off. Another body was so crushed and burned as to be unrecognizable, but supposed to be that of a man named Colne. The original building was erected at a cost of $110,000.

The two bodies not fully identified this noon are James Coyne, bill poster, and John Killingbeck. The latter was only recognizable by a hand from which he had previously lost fingers and a truss worn on his body. This completes the list of the dead—11 in all.

The coroner's jury this afternoon, after an exhaustive examination, rendered a unanimous verdict as to the cause of death, and added that they further find the supply of water from hydrants was wholly inadequate. Had there been a sufficient supply of water, the fire department would have stopped the conflagration which caused the falling of the walls. The total insurance was $100,000.

BY ATLANTIC CABLE.

England Consolidating her Interests.

LONDON, June 8.—Among the reports circulated yesterday on the stock exchange were those that England is about to purchase founders' shares in the Suez canal, and the Porte's sovereign rights in Egypt. Some papers think the character of the buying indicates a good foundation for the belief that England is about to take further important steps to consolidate her interests in Egypt, while others think the step already taken ample to justify the turn of confidence in Egyptian securities and that the reports of further action are mere stock jobbing canards.

The Dissentions in France.

PARIS, June 8.—Duke De Broglie has received a deputation of legitimatists, who demanded that the ministry be remodeled according to the views of the royalists. De Broglie replied that President MacMahon had no intention of asking for a prolongation of his powers. He would retain his office until 1880, and not beyond that term, and thus close the door upon the hopes which were justified by the constitution. President MacMahon subsequently confirmed Duc De Broglie's statement.

The *Moniteur* admits the meeting of the presidents of the Republican Left was informal, but maintains the virtual accuracy of the published accounts, which were questioned this morning.

Parties which favor an immediate dissolution of the chamber appear to have gained the upper hand. There is no probability of the chambers being prorogued for the second time.

THE WAR IN THE EAST.

Roumanian Army.

BUCHAREST, June 8.—The Roumanian army, ready for actual fighting, numbers 55,000 regulars. This number includes infantry, cavalry and artillery, and is divided into two army corps. There are also 5,000 militia under arms, available for field service and 5,000 regulars employed in non combatant duties.

Defense of Erzeroum.

VIENNA, June 3.—Mukhtar Pasha has abandoned the idea of defending the heights fronting Erzeroum, though he intends defending the town. This backward movement is caused by the advance of the Russian column from Olti threatening communication between Erzeroum and Trebals. To meet this danger Mukhtar Pasha has dispatched five battalions and some guns.

Montenegrins Defeated.

CONSTANTINOPLE, June 8.—Montenegrins on Wednesday attacked Souz and were defeated, leaving 2 dead and 60 wounded.

The Czar at Ploiesti.

PLOIESTI, June 8.—The Czar and Grand Duke proceeded to Bucharest to-day to visit Prince Charles. They return to-night.

To What Turkey must Submit.

BRUSSELS, June 8.—*Le Norde* publishes an article about the peace rumors. The following are extracts: Russia will not lay down her arms until guarantees corresponding to the sacrifices already made have been obtained from Turkey. There is no question of Russia concluding a cheap bargain. Demonstrations must be complete and results decisive. It is a necessity for the security of the future. Turkey should be perfectly convinced of her isolation and inferiority and the absolute necessity of submitting to the conditions she herself has made necessary.

Schouvaloff and Derby.

LONDON, June 8.—Count Schouvaloff had an interview with Lord Derby yesterday.

The Turko-Montenegrin Fight.

VIENNA, June 8.—Details of the fighting on the 4th inst. near Kriestock and Piva are at hand. Both sides fought with great bravery the whole day. The Turks notwithstanding their strenuous efforts, in which they lost 3,000 men, failed to advance near to Piva. Montenegrins have again entrenched themselves along the pass between Kriestach and Preskaka.

Turkish Officers Shot.

A special from Constantinople, via Athens, says several Turkish officers have been shot for the loss of Ardahan. The court-martial is still sitting.

Further Details of the Fight.

OSTROW, June 8.—A correspondent who draws his information from officials, Montenegrin sources telegraphs the following account of recent operations, under date of Friday: The Turks moved in two columns, one going to the relief of Goransko, and the main force, under Suliman Pasha, to Kris z. The latter column attacked the entrenchments of Gen. Vukovitch with great gallantry, but were repulsed, being twice driven back on the reserves. A third attack was also repulsed, the Turks taking up a position opposite Kristaz, where they still remained when the last courier left. In spite of this alleged third repulse of the Turks the account proceeds to state that Gen. Vukovitch fell back on his second line at Duga pass at three o'clock next morning where he has not been molested. It appears from this report which certainly does not unduly exaggerate the success of the Turks that if Gen. Vukovitch's positions were not actually stormed, he is placed in such a position as to be obliged to abandon them. The account continues, the Turkish loss in dead in this engagement is about 3,000. Of these 600 dead were counted in front of the entrenchments.

General War Notes.

BUCHAREST, June 8.—The Russians at Giurgevo have been preparing since yesterday for a vigorous bombardment of Rutschuk.

The Prince of Roumania has issued a decree that all persons charged with endangering the safety of the troops shall be tried by court martial.

There is an impression at Shumla that the Russians are about to attempt to cross the Danube at Nikopolis, where the river is only half a mile wide. The Turks are massing troops at Nikopolis and must be reducing the garrison of the Quadrilateral.

The War Feeling in England.

CHICAGO, June 8.—The *Tribune's* London special says: The people, parliament and the press are equally divided on the war. The middle and lower classes are peaceably inclined, and these follow Gladstone, and are represented by the *Daily News*, which has the best war news and correspondents. The war element is much smaller, yet holds the balance of power. It is represented by Disraeli in the cabinet, and only the wholesome dread of public opinion prevents its declaring war. It is an unacknowledged but existing opinion here that the army is inadequate to oppose the tide of Cossacks in the Occident. The nation is simply waiting developments. The war papers reiterate that this is foolish locking the stable after the horse is stolen. The Czar plainly intends to carry the war to such extremity as will give Russia an outlet by the Black Sea and a foothold on the Persian Gulf. England's overwhelming self-pride renders her unable to believe any Power will have the audacity to throw down the glove to her. Meanwhile Count Schouvaloff is bandying honeyed words until the Czar can cross the Balkans and bombard Constantinople.

EX-PRESIDENT GRANT IN ENGLAND.

LONDON, June 8.—Ex-President Grant attended the agricultural show at Bath. His reception was enthusiastic and the Mayor presented an address.

Great preparations are being made at Guild Hall for the reception of Gen. Grant on his arrival. He will be received by the Lord Mayor and corporation, and be conducted to the library where the Chamberlain of London will present him the freedom of the city accompanied by appropriate addresses. Upwards of 800 guests will be invited to meet the General at breakfast which follows the ceremony.

The Queen's ball and concert at Buckingham Palace has been postponed, the former until June 22d, and the latter until June 27th, in consequence of the funeral of the Queen of the Netherlands.

Dinners for Gen. Grant.

LONDON, June 8.—On the 23d Gen. Grant will dine with the Prince of Wales. This will be the grandest entertainment of Gen. Grant's visit in point of rank of guests. Dates of dinner with the Queen and with Derby are no fixed. Earl Beaconsfield's dinner is decline on account of another engagement. The ex President takes precedence at every entertainment of all members of the Royal family. Gen. Grant will leave London 27th of June and probably go to Paris.

Dr. Grant.

LONDON, June 8.—The Oxford University honorary degree D.C.L. has been conferred on ex-President Grant. Wednesday next the ceremony of presenting him the freedom of the city will take place.

The address issued with the call for a constitutional convention in Georgia is a pretty good piece of work. Since Georgia is resolved to reject the principles of reconstruction and to repudiate the results of the war, she ought to secede again, and at once. This is imperatively required in order to make her action consistent with this address.

Benton *Democrat*: Benton county has a very much larger acreage than ever before in wheat, and as the yield will be in excess of the previous three years, and also the price being much greater, the farmers confidently expect to be able, by this means, to square up themselves with the world and have a good margin remaining.

Daily Oregonian.

SATURDAY MORNING, JUNE 9, 1877.

CONTRASTS.

The press of San Francisco, with the honorable exception of the *Bulletin*, is either indifferent to Oregon, or belittles the resources and attractions of our State. Among all the newspapers of the commercial city of the Pacific the one named above alone has a perception of the truth that the growth of Oregon conduces to the growth of San Francisco. All trustworthy accounts from California represent the loss and suffering from drouth as extreme, and these statements have been reiterated and confirmed in too many ways to allow them to be discredited. We have published letters written by residents of different parts of that State, which have related the facts in terms which only the stern reality of what the writers undertake to describe could surpass or exaggerate. But many of the newspapers of the State attempt to ignore the testimony borne by all to the facts around them. A journal now before us claims that the reduction of the crop will not be in proportion to the advance of the price of wheat, and that the surplus of California will therefore bring more money this year than last. But the facts as reported from a multitude of sources do not bear out this statement. A few days ago a prominent business man and large land-owner of California stated in this city that no description could exaggerate the desolation of a large portion of that State. He said further that Oregon would this year have a larger surplus of wheat than California, and that there is greater future for our State than for any other portion of the Pacific slope.

Incidents are, however, mentioned by the press of California which confess much of the truth. The Sacramento *Record* recently said: "We met a jolly Dutchman the other day, who, three years ago passed through Sacramento with his eyes and ears shut lest something should arrest his progress toward Los Angeles. To Los Angeles he went and bought a farm, built a house and put his family into it, and commenced making a home where the olive and the orange were to grow in a few years, and where he and his were to live in comparative ease and plenty. When we met him he had his blankets on his back, going north. After relating his story in the south, he said: 'I am going north, and I don't care how far north.' This expression only gives voice to the desire of thousands who have not the ability to execute their desire."

CITY ELECTION.

A call is issued for primaries and a convention to nominate a Republican ticket for the municipal election, which will take place on the 18th inst. It may be supposed that a similar call will be made for a Democratic ticket, since this course has been demanded by the organ of that party. As yet we hear of no effort or proposition to nominate an independent ticket. If no movement of this kind be attempted citizens who do not care for party or politics in affairs of purely local concern will make such choice as suits them out of party nominations.

There is a large number who will not follow the name of party in an election of this kind, but will vote for men on the principle of selection. By all such fitness will be made the test, rather than the views of the candidate on national politics. Nothing could be more remote from real use than the merely political test in an election like this. Such a doctrine, it is true, will not please those who are nothing if not partisans, but it is entertained by a very large body of men who differ widely from each other when questions which really have political character, arise.

The interests of the city, in so far as they may be affected by the coming election, are entirely local and have no sort of relation to national or general politics. We are not to decide on this occasion whether the constitution of the United States creates a national government or only a league of States. We are not to pass judgment just now on the Louisiana returning board, on the electoral commission, on the "remonetization" of silver, or on Hayes' Southern policy. The questions are simpler and come nearer home. To place the administration of city affairs in judicious hands, so that the laws may be properly enforced, peace and protection guaranteed, and the revennes carefully husbanded, is the sum of what we have to consider; and candidates will be judged on these matters according to their character, record and associations.

Therefore we shall support no candidates for this election simply because they are nominees of a party convention. It is not practicable on such an occasion to enforce so absurd a test. Many members of both parties habitually reject it. If the convention that has been called in the name of the Republican party present candidates who seem more worthy than others, we shall support them; not, however, because they are the nominees of a party convention, but because they are worthy men. This is a plain proposition. If the choice be between the nominees of two party conventions, or even if an independent ticket be added, we shall select the fittest men, and a majority of citizens, judging each for himself, will do the same.

AMBITIOUS OF STATE HONORS.

In the Territories it is the usual and regular thing to find politicians who desire to wear the official honors which Statehood confers, contriving ways to bring young territorial communities out of the chrysalis condition in advance of the time of nature, and to cause them to take on themselves the dignity and responsibility of States. In Washington Territory an effort like this has been going on for a considerable time. Recently the Seattle *Dispatch* mentioned a report that, as the vote for a State government in that Territory had carried by a large majority, there would be an attempt by ambitious and impatient politicians, headed by Governor Ferry, to convert the next legislature of the Territory into a convention, as soon as it may assemble. Commenting on this the Olympia *Standard* says:

This is news in this political quarter; but those who have observed the Governor's irrepressible conduct in party conventions will not be slow to believe that he is engaged in any scheme which promises to result in the gratification of his ambitious objects. The only doubt we have on this subject is owing to the difficulty in carrying such a project into effect. Certainly no constitution, submitted in the manner proposed, would be received or accepted by the present Congress. The uniform procedure has been to elected delegates especially to frame a constitution to be ratified by the people, and to impose this duty upon a legislative body, elect without the most remote idea of being called upon to exercise such functions, would neither be sanctioned by the law makers nor the people who elected them. The *Dispatch* says: "That the Governor has a constitution already prepared is no secret; but that it will be the same thing when passed as when offered, nobody believes. He is very anxious to have it passed, so as to create an immediate election of United States Senators, but the legislature elected last fall cannot do that. The legislature which elects a United States Senator must be chosen for that purpose by the voters of a State, not of a Territory. Hence, as reverses in popular sentiment often occur, the Governor's grasp may contain the empty air, instead of the golden prize of a Senatorship." It may be that his Excellency has forgotten, for the nonce, that Congress is differently constituted from what it was during and at the close of the war, when constitutions were forced upon an unwilling people quite as unjustly as in the manner proposed. The present outlook warrants the belief that the President likewise possesses a will which may, when occasion arises, prove superior to party dictation.

It is suggested that Gov. Stone of Mississippi must be in need of troops. Many weeks have passed since the Chisholm massacre, in which six persons, including two children, were sacrificed to the demon of political hatred, and not an arrest has yet been made. What makes the matter more noticeable is the fact that the perpetrators are not even hiding from justice, but, as the Governor himself has said, are "all well-known citizens of the county."

The latest census of the population of the British empire show a total of nearly two hundred and thirty-four millions. Of these only one-sixth are Christians, while over one-half are Hindoos and Mohammedans.

It is a terrible insult to speak of the war as the rebellion, and the independent nation of Georgia is insulted and outraged by it.

OFFICE OF INSURANCE COMMISSIONER,
San Francisco, Feb. 5, 1877.

I, J. W. Foard, hereby certify that I am Insurance Commissioner of the State of California, and have supervision of insurance business in the State, and as such Commissioner, further certify that the Pacific Mutual Life Insurance Company of California is a corporation properly organized under the laws of this State, and being in a solvent condition and possessed of a paid up capital of One Hundred Thousand Dollars, equal to Gold Coin of the United States, is authorized to do business in the State. And I further certify that upon a personal examination of the books and papers of the said company at the close of the year eighteen hundred and seventy-six, its statement as of this date, and now on file in this office, was shown to be correct and true, the company being possessed of good, valid assets amounting to one million two hundred and sixty-four thousand eight hundred and thirty-six dollars and eighty-six cents* ($1,264,836 86), and having outstanding liabilities, as defined by the laws of the State, amounting to nine hundred and sixteen thousand seven hundred and fifty dollars and five cents ($916,750 05), exclusive of the Capital Stock.

I.S. As witness my hand and official seal, the day and year first above written.

J. W. FOARD,
Insurance Commissioner.

[Extract from Report of A. J. Smith, ex-Deputy Insurance Commissioner.]

J. G. Edwards, Publisher *Coast Review*,

Dear Sir:—In pursuance of your request I have made an examination of the Assets and Liabilities of the Pacific Mutual Life Insurance Company of California, as they existed on the 31st day of December, 1876, as shown by the books and papers of the Company, and as a result of such examination I beg to report as follows:

Total Assets, Gold	$1,281,847 59
Re-Insurance Reserve, American Experience, 4½ per ct.	$866,631 49
Claims for Death Losses	28,700 00
Due on Account Salaries and Rents	2,019 02
Total Liabilities, Gold	916,750 51
Net surplus to Policy-holders, Gold	$365,097 08
Company's paid-up Cap (t)l	$100,000 00

The above is, I believe, a true and fair statement of the Company's condition Dec. 31, 1876.

In conclusion, I beg to say that I found the Company's business thoroughly systematized—its books and papers in excellent condition and neatly kept. Every facility was extended to me by all the officers and employees of the Company to enable me to make my examination thorough. Books, papers, and accounts were freely exhibited to me. There was no attempt to hold back or conceal anything. I am satisfied the Company courts the most rigid scrutiny. For courteous treatment, I beg to return thanks to the officers and attaches of the Company.

Respectfully submitted. A. D. SMITH.

San Francisco, February 5, 1877.

*Commissioner Foard excludes items of assets not admitted under the laws of California, amounting to $17,010 73.

SATURDAY MORNING, JUNE 9, 1877.

CITY.

HIGH ANSWER.—Two juvenile offenders, John Dougherty and George Thorn, alias Conner, were arrested and examined in police court yesterday, on a charge of attempting to commit highway robbery on Geo. Landerkin, the bell boy at the St. Charles Hotel. The young culprits attacked Landerkin at the foot of Alder street, about 10 o'clock Thursday evening, and after beating him severely, went through his pockets. However, they succeeded in securing only a few cents. Complaint was registered and Thorn and Dougherty were arrested. Evidence of their guilt being established to the satisfaction of the court, they were held to answer the charge, each in the sum of $100. Failing to secure the required bonds, they were committed to the county jail to await the action of the grand jury. As court will convene next Monday morning, they will not have to wait long. These boys were sent to the penitentiary a few years ago for burglary, but were subsequently pardoned. They are both bad eggs, and the community will be benefited by their early return to that institution.

SOCIETY ORGANIZED.—Says the Catholic Sentinel: "In accordance with the request of the Very Rev. J. F. Fierens, V. G., a meeting of the Catholics of this city convened at the library rooms on Sunday for the purpose of reorganizing the Catholic Library and Christian Doctrine Society. Mr. Chas. Petrain was called to the chair, and Mr. W. J. Kelly elected secretary. After an exchange of sentiment among those present on the best plan of proceeding in the attainment of the desired object, a roll was opened and a large number of names enrolled. Messrs. S. C. McCormick, D. C. Mahrkey, and J. S. Raleigh were appointed a committee for the purpose of preparing a suitable constitution and rules for the government of the society, to report at an adjourned meeting to be held on Sunday, 17th inst."

PETITION FOR USE OF GROUNDS.—The following petition, addressed to Lloyd Brooke, Esq., (who is the owner of the ground), and signed by about fifty juvenile base ball players of the city, including the Athletic, Mutual, Atlanta and Pacific base ball clubs, has been handed us with the request to publish the same: We, the members of the undersigned clubs of Portland, do hereby petition you to grant us the use of the square (the old Pioneer grounds), situated between Eighth, Ninth, Market and Mill, for the purpose of a base ball ground. Hoping you will grant our request, we remain yours very respectfully, etc.

OYSTERS ENJOYED.—Yesterday afternoon the Grand Chapter of the Royal Arch Masons for Oregon met at Masonic Hall. Among other business transacted, the following officers were elected to serve for the ensuing year: J. B. Lee, M. E. G. H. Priest; J. B. Congle, D. G. H. Priest; E. J. Babcock, E. G. King; F. N. Gilbert, E. G. Scribe; R. P. Earhart, E. G. Chamberlain; C. H. Lewis, E. G. Treas.; D. P. Mason, E. G. Lecturer; J. H. Evans, G. C. of H. These officers will be installed to-day at 2 o'clock P. M.

VIA VICTORIA.—The following passengers left Portland on the steamship *Dakota* via Victoria for San Francisco: Jas. H. Taft and wife, Marcus L. Taft, Wm. N. Taft, J. J. Bailey, D. Fullaman, S. H. Nourse, A. M. Hyphoid, J. M. TenBosch, Miss B. Fettis, E. S. H. M. Belcher. Steerage—F. Smith, R. H. Thurston, John O'Brien.

CAUTION.—Yesterday morning a drove of hogs numbering 700 crossed on the ferryboat. The size and the capacity of the boat to its utmost limit—the animals being packed like sardines in a box. Teams and foothen were compelled to wait for another trip of the boat. The animals were crossed in safety, not one being lost.

ANNUAL MEETING.—When the bridge meeting adjourned last Saturday, it adjourned to meet to-day. We are requested to state that there will be no meeting, as the committee have not been able to prepare their report owing to the limited time. There will be a meeting until called by the president.

LECTURING.—The San Francisco *Chronicle* of June 4th says: "Rev. Thomas L. Eliot's lecture on Dr. Schliemann and his Discoveries at Troy, with illustrations, at Mercantile Library Hall last night, was slimly attended. 'Ilium and the Greeks' is the subject of his lecture on Thursday evening."

UNCLAIMED FOR.—The following letters remain uncalled for in Wells, Fargo & Co.'s Express office: John Carey, N. P. Hall, Chas. F. McCarthy, Chris. Roos, L. Samwells, J. F. Williams.

RACE.—A trotting race will take place at the White House course at two o'clock today. Three horses have been entered for best three in five heats.

PERSONAL.

R. W. Wilson, Esq., of Benton county, is on a visit to this city, the first in a number of years. He made us a pleasant call last evening, and speaks encouragingly of railroad and agricultural prospects of Benton county.

Ladies, if you want a nice cashmere dress go to the Emporium of Fashion of J. Harris & Son.

Dress Well.

There are certain duties every gentleman owes to society. One of these is to dress with taste. One cannot do so unless his tailor is an artist. A misfit of the finest material only makes it the more glaring. First select your tailor then your goods. By going to Fishel & Rotter's you are sure of two things: the latest fashionable style, and a suit that will fit like a glove.

Don't waste money paying high prices while Birmingham, 134 First street, is doing good and cheap work in the furniture line.

PICNICS.

GRAMMAR SCHOOL PICNIC.—To-morrow the Independent German School Association will hold its eighth anniversary picnic at Canyon Garden. Those having the matter in charge, have made all necessary arrangements, and it is safe to predict a very pleasant time to all who may attend. Admission 50 cents.

EMMET GUARD PICNIC.—"Third time is the charm," runs the old saw, and in the matter of the long expected and long delayed picnic to be given by the Emmet Guard, the saying has proved true. Twice before, the Company has made every possible preparation in anticipation of the affair, each time to be greeted by the frowns and disapproval of the churlish weather clerk. Each disappointment has only strengthened the determination of the Company not to yield to climatic obstacles. Come sunshine or clouds, they propose to hold the picnic at East Portland Park to-morrow. Present indications give assurance of a glorious day. Should the weather prove propitious, it is needless to predict a numerous attendance, and an enjoyable time. The park has recently been improved in several important particulars,—a new dancing platform being one of the most important improvements. To-morrow at 9 o'clock A. M., the Company will form at the armory, corner of First and Stark streets, and proceed immediately to the grounds, where the sports of the day will commence. Prize foot race, fat men's race for prize, ladies' foot race for prize, sack racing, wheelbarrow racing, leaping, etc., for prizes. Dancing to continue until 9 P. M. Prof. Leotard, the celebrated gymnast, has kindly volunteered and will make the "Leap for Life" at 5 P. M. The following gentlemen compose the committee of arrangements: Lieut. J. Noonan, Sergt. W. J. Daley, M. Phelan. Price of admission: Gentlemen, 50 cents; ladies and children, 25 cents. Tickets can be procured from any member of the Company or at the gate. Good music has been engaged for the occasion, and no pains or expense will be spared to make the affair a pleasant one to all who may attend.

THE ALLEGHANIANS.

To night this popular troupe of singers and bell ringers appear at Odd Fellows' Hall, East Portland, by special desire of numerous families residing on that side of the river. The company are very successful everywhere. We copy the following notice from the *Daily Astorian* of yesterday morning: "Notwithstanding the benefit for the fire engine fund by Jack's theatrical company, the Alleghanians drew another crowded house and many went away, unable to gain admission. Families and our best citizens, including the clergy, teachers and schools, came out in large numbers, filling the courthouse to overflowing. The concert is pronounced by every one as the best ever given in Astoria. The music produced by the Swiss Bells and Band, with the beautiful quartettes and songs make up a combination which always pleases, refined tastes. We wish we could have had another night with this popular troupe, but prior engagements prevent them from remaining any longer in Astoria. Mr. Waldron, who, by the way, is an old typo formerly connected with the press of California, informs us that his success has been very great thus far during their coast tour. They go to-day to Vancouver, thence to Oregon City, Salem, etc. We wish him and his favorite company full houses wherever they may appear."

No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heart burn, Waterbrash, Sick Headache, Costiveness, Palpitation of the Heart, Liver Complaint, coming up of the food, low spirits, general debility, &c., yet since the introduction of OSGOOD'S ARCTIC FLOWER we believe there is no case of Dyspepsia that cannot be immediately relieved. 30,000 dozen sold last year without one case of failure reported. Go to your Druggist and get a Sample Bottle for 10 cents and try it. Two doses will relieve you. Regular Size 75 cents. Agents, Crane & Brigham, Wholesale Druggists, San Francisco.

CAPITAL NOTES.

Our regular correspondent sends the following under date of June 8th:

H. Thielsen, Esq., of Portland is rusticating on his farm near this city.

A few new cases of diphtheria are reported, but generally in mild form.

The Commercial Hotel has added a new feature in the shape of a bar.

A new foundry and machine shop will be erected in Salem during the present summer.

Senator Grover is actively preparing to meet the Senate committee and defies all efforts of investigators.

The flax manufactory which Salem has been expecting for some time past is about to be located in Albany on account of superior inducements.

Immigrants arriving are generally pleased with this part of the valley, and the population of Marion county is being rapidly increased by permanent and substantial settlers.

The Burch-Watkinds penitentiary muddle has apparently simmered down but it is hinted that the matter will go into the courts at an early day. Leading partisans are afraid of the result, and are laboring to prevent it.

ENTERPRISE.—Last January Mr. L. Samuel, publisher of the *West Shore*, issued a magnificent "holiday number" of that valuable journal, which contained 44 pages of interesting reading matter, and 56 engravings of scenes in the Pacific Northwest. The entire edition cost about three thousand dollars, and surpassed anything ever attempted in the line of enterprising journalism on the Pacific coast. The enthusiastic reception given to that number, and the liberal patronage extended to him since, have induced Mr. S. to issue a "midsummer holiday number," and for the past two months his artists have been busily engaged in producing beautiful sketches of scenery about the mouth of the Columbia river, Eastern and Southern Oregon, Northern Idaho, Eastern Washington, British Columbia and the great lumbering and coal mining regions of Puget Sound. Besides these sketches a host of able writers are furnishing interesting descriptive articles. When ready for delivery, in July, this number will be a lasting monument to his enterprising publisher, and accomplish a vast amount of good for the Pacific Northwest. As Mr. S. furnishes these mammoth editions to all yearly subscribers without extra charge, and as the subscription price is only $1 50 per year, we think that every citizen of the Pacific Northwest should not only have this interesting and instructive journal in their own homes, but subscribe for extra copies to send to friends abroad.

CATARRH.

Would willingly have given one hundred dollars for the relief obtained from the first dose.

From the well-known maker of Yale's Mammoth Tent.

Gentlemen:—I have suffered ten years from the worst form of Acute Catarrh, or Cold in the Head, that ever afflicted mortal man. Whenever I took a fresh cold, it would settle in my head, causing the most violent sneezing, accompanied by excessive discharges from my eyes and nose. For days and days my suffering would be intense, and finally settled in my loins and bowels, would render my life miserable for a month. Never, during all my sufferings, was I able to obtain even temporary relief from any medicine I ever tried. Three weeks ago, while suffering from the worst attack I ever had, I procured a bottle of SANFORD'S RADICAL CURE FOR CATARRH. The relief from the first dose was so gratifying that I would willingly have given *one hundred dollars to obtain it*. A few doses completely cured me. My head has since been perfectly free from mucous accumulations, my breathing easy, and not a symptom of trouble about my back and bowels has presented itself. Its effect in my case has been truly remarkable.

Very respectfully, R. M. YALE,
Sailand Awning Maker, 2 South Market St.

CATARRH.

A Remarkable Case of Catarrh Cured by the use of Twelve Bottles.

We select the following case as showing how frightful this disease may become, and as a convincing proof of the value of SANFORD'S RADICAL CURE as a reliable remedy for its cure, even in cases of the greatest severity. We regret that from motives of delicacy, the gentleman declined to permit the use of his name:

Case No. 11.—This is the case of a man in the prime of life who had contracted the disease through a bad cold six years ago. Favored by a scrofulous condition of the blood, the disease sent its acrid poison into every part of the system, so that when he commenced the use of SANFORD'S RADICAL CURE it had become one of the worst cases ever experienced by any living man. The discharge at night was thick, putrid and streaked with blood, and so excessive in quantity as to discharge itself upon the pillow during sleep, and collecting in quantities in his throat, would at the point of strangulation, wake him. Several times each night he was obliged to get up and partially clear his nostrils and throat before he could sleep. From the use of one bottle of the RADICAL CURE to the present, the cure has been gradual, satisfactory and permanent. He has used twelve bottles, and now experiences no return of the discharge nor any of its disagreeable symptoms, besides enjoying unusually good health otherwise.

CATARRH.

A series of uninterrupted Cures effected with it by a well-known Boston Physician.

From Dr. Chas. Main.

Catarrh is the *opprobium medicorum* of the medical profession, and is held by many to be incurable. When, therefore, a preparation is presented to my notice, endorsed by so responsible a firm as Messrs. Weeks & Potter, I am bound to give it a fair and unprejudiced trial, and when such trial results in a series of uninterrupted cures, I cannot allow professional etiquette to interfere with a candid expression of my regard for it. I therefore give SANFORD'S RADICAL CURE FOR CATARRH my unqualified approval, and consider it is a remedy for the treatment of every form of Catarrh superior to any preparation laid down in any text book with which I am familiar. Very respectfully,

DR. CHARLES MAIN,
Boston, May 19. 362 Harrison Avenue.

SATURDAY MORNING, JUNE 9, 1877.

LOVE'S REVEL.

Love in a lethargy once slept
A week without awaking,
And day and night his mother wept
As if her heart were breaking
The Graces pinched the boy in vain,
He never felt their stinging
They sang to him a Paphian strain,
He slept through all their singing.

To Jove at length the goddess soared,
Most miserably crying,
"Oh, save my son, Heaven's mighty Lord!
The God of Love is dying!"
"To earth," said Jove, "once more repair,
And cease your cries and weeping,
A friendly leech will meet you there
Who'll cure Love's oversleeping

Venus flew back, the boy was free,
For Jove, on special mission
Had sent him green eyed Jealousy,
Juno's own state physician.
The cure, much worse than the disease,
Olympus shook with laughter
For Love was never at his ease,
And never slumbered after

UNCLE ZEKE'S CONSCIENCE.

THE SCIENCE OF ELECTRICITY TAUGHT BY EXPERIENCE.

[T L McCready in Harper's Magazine for April.]

Some years ago there moved to the neighborhood of Uncle Zeke's cabin a gentlemen from New York whose identity may be disguised under the name of Smith. The new-comer engaged vigorously in farming, and by liberal employment and prompt payment soon gained the good will of all the colored men around him. Uncle Zeke in particular was never weary of chanting his praises, and many a bushel of oysters did Ezekiel convert into money at Bellevue, as Smith's estate was called. But all the good will of humble neighbors did not suffice to protect Mr. Smith from pilferings. Shoats would disappear mysteriously during the night, geese and turkeys would take wing for parts unknown, and in particular the corn crib would frequently show by unmistakable signs that its sanctity had been violated. To the story of these various losses would Uncle Zeke incline a sympathetic ear, and his "Well now, who ever hear de like o' dat? clar to goodness dese yere boys is gettin' wusser an' wusser," evidenced alike his detestation of the crime and his contempt for the offender.

Smith's patience was at last exhausted, and he determined upon vigorous measures for the protection of his property. His first experiment was to place a large spring rat-trap, artistically concealed in a heap of shelled corn, close by the cat-hole in the corn-crib door, expecting that the unwary thief, plunging his hand recklessly through the hole in the heap, would be caught and held till some one came to set him free. But, lo! next morning the trap was found sprung and the heap of corn diminished, but the thief had vanished and left no trace behind.

At last a good-sized box arrived from New York, and the next day the local carpenter was ordered to fix two brass handles to the corn-crib; one to be put alongside the door for convenience, as Mr. Smith publicly explained, of steadying one's self while turning the other. The second handle had a lock attached to it by which the door was secured on the inside, and was set in such a position that one turning it must hold on by the other knob to prevent being thrown backward by the opening door. Both handles were profusely decorated with glass, and elicited much admiration from the hands, who submitted them to a critical examination. The carpenter's work being finished, Smith, in presence of all his colored employes, solemnly repeated, in front of the corn-crib, the first two lines of the second book of Virgil's Æneid, and announced that his corn was thenceforward secure. A box, stated to contain seeds, was that afternoon deposited in the crib, and during the early part of the succeeding night the proprietor of Bellevue secretly busied himself with a coil of insulated wire.

Numerous and diverse were the speculations among the darkies. Jim Oakley "'lowed Mis' Smith done 'witched dat are corn-house, sho 'nuff. Tell you, gemmen, you touch dem 'ere handles, evil sperit carry you 'way.' No such ting's evil sperit? How do you know dere no such ting? Hush, boy; go see what de Bible say 'bout tem ting." Pete Lee didn't b'lieve in no sperits; got a gun fix somewhar inside dat house; turn de handle an' de gun go off. Seen dem tings afore up country, when I live in Goosleum." Another theorist averred that "while Mis' Smith sayin' dat ar Scripter, ober dem handles, he seen a white pigeon come a-sailin' roun' an' roun', and done light on de peak o' de corn-house roof. High! tell you, sar, sumpin up, sho."

Uncle Zeke, like the rest, was troubled in his mind, but, unlike his fellows, he determined to waste no time in speculation, but to seek his information direct from headquarters. Prepared with a half bushel of oysters, as an excuse for conversation, he sought an interview with Mr. Smith, and boldly propounded his questions:

"Mis' Smith, what you bin a-doin' to dat ar crib o' yourn?"

"Why, Uncle Zeke, what do you want to know for?"

"Oh, nuffin, sir; sorter curus like. Hearn all de boys talkin' 'bout it—neber see nuffin like dat afore."

"Well, Uncle Zeke, I can't very well explain it to you; but I just advise you—don't go near that crib after dark, or you may see something you won't like." And Uncle Zeke departed, revolving many things in his mind.

It was midnight—the hour when church yards are said to yawn, not with exhaustion; but returning animation. In front of the enchanter cornhouse stood Brother Ezekiel, a lengthy pole in his hand, and a capacious meal bag over his shoulder. In silent meditation he stood for some five minutes, deliberating on the best plan of attack. The great Newfoundland watch-dog bounded toward him, evidently in rejoicing welcome. Forth from his pocket the old man drew a savory bit of fried bacon, which the faithless Bos'en eagerly devoured. The reflection ended, the dog lay contented on the ground, and watched the subsequent proceedings with the air of a totally disinterested observer.

"Clar to goodness, now," muttered Uncle Zeke, "wish't I un's got 'bout dis tung. Can't be no spring trap like a las' time, kase how he gwine to spring froo de do'? Kel ke! Done bodder Miss' Smith sho 'nuff when he find dat ole rat-trap sprung and nuffin cotch. High! Can' fool disser chile wid no traps. No, Sar' done see too much for dat."

Uncle Zeke paused, scratched his head meditatively, and then resumed his soliloquy.

"Well, I declar', ef disser don' beat preachin'! Mus' be a gun in dar. Ef sin' no gun, den dere ain't nuffin dare—all foo'shness. Anyway, I's gwine for to try him."

Uncle Zeke threw his bag to the ground, stepped to one side of the house, and with his pole struck a sharp blow on the brass knob nearest him. Nothing followed. He pried against it with his stick, but still without effect. He went to the other side of the house and repeated his experiments on the second knob, but still all remained quiet.

Uncle Zeke now drew from his pocket a skeleton key, mounted the ladder, and in a trice had opened the padlock which held the door.

"Dar now, 'us' 's I t'ought. De boss done humbug dem fool nigger, make um tink disser house 'witched. Ain' nuffin dar, sho 'nuff."

The old darkey reached up and cautiously turned the handle. The door opened a little, and, casting away all fear, Uncle Zeke boldly reached for the other knob, to steady himself while he swung back the door.

Literally like a flash of lightning the electric discharge passed through him. The muscles of his finger contracted, and he could not release his hold of the enchanted handles. At last his feet slipped from the ladder, and the weight of his body tore his hands adrift. Like a log the old man dropped to the ground, and lay groaning, praying, and generally bewildered.

"Oh, de lawsgoramity! Oh, my heabenly Marster! Who eber t'ought o' dat! My conscience done wake up! my conscience done wake up! Heern 'bout it often, an' now I knows it. Oh, my heabenly Marster! if you lets up on me dis time, Uncle Zeke neber touch nuffin no mo'. Clar to goodness I's a changed man f'om dis day. B—r-r-r-r—" And what with the shock, the fright, and the fall, Uncle Zeke's senses seemed leaving him.

"Ezekiel!" said a solemn voice. Instinctively old Uncle Zeke answered, "Here me," and looked in the direction of the sound. Oh, horror! A figure clad in white was nearing him with slow and solemn steps. As the mysterious vision approached, it seemed to rise till it towered to the height of at least ten feet. The wretched Ezekiel, on his hands, his eyes protruding, and his jaw dropped, remained as if paralyzed.

Suddenly the phantom bowed itself, and its head descending with incredible swiftness smote the unfortunate Uncle Zeke senseless to the earth.

Three days later, as poor Uncle Zeke lay, racked with rheumatism and tormented with spiritual fear, upon his bed in the single room of his cabin, the door opened and in walked Mr. Smith, of Bellevue.

"Good morning, Uncle Zeke. Why what's the matter with you, old man?"

"Oh, Mis' Smith! oh, Mis' Smith, I done had some terrible sperences lately. De angel ob de Lord don wrastle wid me, an' my conscience done woke, an', oh my Heabenly Master, I's one sufferin' sinner Mis' Smith, is you bin—is you done—is you m-miss any ting wid dat ar c-corn house o' yourn?"

"No, indeed, Uncle Zeke, nobody been near it. Everything all right now."

"An' nobody done touch de lock? Do' lock ebery morning?"

"Yes, indeed, who do you think would touch it, old man?"

Uncle Zeke answered not, but his lips moved convulsively, as he muttered, "Knock me down fus, an' den lock de do' and took de key. Now I *knows* it was de angel ob de Lord."
